(G4-DMA, G4-EN30)

*“In view of optimizing our transport services, we have reorganized the garage department in separate sections and conduct regular maintenance of our vehicles to be compliant with legal and regulatory requirements.”*

Joseph de Guardia de Ponte  
Garage & Logistics Manager

**850,387 tonnes**  
materials transported

Omnicané's logistics fleet of more than 30 lorries, all equipped with GPS technology, mainly transports sugarcane, refined sugar, coal and other products for the different entities of Omnicané Group. It also has a specialised fleet of agricultural equipment for Omnicané's own operational and third party use.

In 2015, Omnicané Logistics transported a total of 850,387 tonnes (2014: 619,802 tonnes) of materials for its sister companies and some external clients with an optimized fleet of trucks and trailers. This represents a net increase of 37% compared to the total amount of materials transported in 2014.

During the year under review, the amount of sugarcane transported increased by 125% as a result of the extended crop period in January 2015. There has also been a greater demand for transport of other products such as sugar bags, Concentrated Molasses Stillage, carbon dioxide and fertilizers. In view of optimizing our transport services, we have reorganized the garage department in separate sections and conduct regular maintenance of our vehicles to be compliant with legal and regulatory requirements.

| Year | Sugar<br>(tonnes) | Coal<br>(tonnes) | Sugarcane<br>(tonnes) | Other products<br>(tonnes) | Total<br>(tonnes) |
|------|-------------------|------------------|-----------------------|----------------------------|-------------------|
| 2015 | 247,132           | 258,216          | 324,875               | 20,164                     | 850,387           |
| 2014 | 223,442           | 246,234          | 143,772               | 6,354                      | 619,802           |
| 2013 | 228,251           | 210,882          | 163,520               | 7,934                      | 610,587           |
