WHAT IS A COOKIE?

A cookie is a small file of letters and numbers that we store on your browser or the hard drive of your computer. When you visit our site, strictly necessary cookies will be placed on your device. You can change the cookie settings that will be placed when you visit our website by changing the settings on your browser.

KEY CONCEPTS

First and third-party cookies: whether a cookie is 'first' or 'third' party refers to the domain placing the cookie. First-party cookies are those set by the website that is being visited by the user at the time (e.g. cookies placed by the Website).

Third-party cookies are cookies that are set by a domain other than that of the website being visited by the user. If a user visits a website and another entity sets a cookie through that website, this would be a third-party cookie.

Persistent cookies: these cookies remain on a user's device for the period of time specified in the cookie. They are activated each time that the user visits the website that created that particular cookie.

Session cookies: these cookies allow website operators to link the actions of a user during a browser session. A browser session starts when a user opens the browser window and finishes when they close the browser window. Session cookies are created temporarily. Once you close the browser, all session cookies are deleted.

HOW TO DELETE AND BLOCK OUR COOKIES?

You can change your cookie preferences by activating the setting on your browser that allows you to refuse the setting of all or some cookies. However, if you use your browser settings to block all cookies (including strictly necessary cookies), you may not be able to access all or parts of our Website.
